

## مقالات سال ۲۰۱۵

- ❖ *Biological dosimetry for the identification of ionizing radiation exposure.* مجله دانشگاه علوم پزشکی خراسان شمالی.
- ❖ *Silver nanoparticles and electroporation: their combinational effect on leishmania major. BIOELECTROMAGNETICS.*
- ❖ *Induction of localized hyperthermia by millisecond laser pulses in the presence of gold-gold sulphide nanoparticles in a phantom. Iranian Journal of Medical Physics.*
- ❖ *The activity of ozonated olive oil against Leishmania major promastigotes. Iranian Journal of Basic Medical Sciences.*
- ❖ *Ultraviolet B efficacy in improving antileishmanial effects of silver nanoparticles. ranian Journal of Basic Medical Sciences.*
- ❖ *The Effect of Fasting on Positron Emission Tomography (PET) Imaging: A Narrative Review. Journal of Fasting and Health.*
- ❖ *Investigating the Effects of Hydrocortisone Hormone on Induced Clastogenical Chromosomal Abnormalities on L929 Cell Line Using Micronucleus Assay on Binucleated Cells.* مجله سلول و بافت.
- ❖ *Radiation-induced bystander effect in non-irradiated glioblastoma spheroid cells. Journal of radiation research.*
- ❖ *the gene expression level of p53 and p21 in mouse brain exposed to radiofrequency field. INTERNATIONAL JOURNAL OF RADIATION RESEARCH.*
- ❖ *A Monte Carlo study on dose enhancement and photon contamination production by various nanoparticles in electron mode of a medical linac. Nukleonika.*
- ❖ *Evaluation of 101Rh as a brachytherapy source. Journal of Contemporary Brachytherapy.*
- ❖ *A Monte Carlo study on dose distribution evaluation of Flexisource 192Ir brachytherapy source. Reports of Practical Oncology and Radiotherapy*
